

BEF275-1

Operating Manual

ACCESSORIES

Part No	Description	Application	
	27501	Heavy duty drum complete with T.C.T cutters and spacers.	For all concrete texturing, scabbling planing and grooving applications. Removal of bridge deck and car park membranes, heavy industrial contamination, epoxy coatings and road markings, reducing concrete. Use on heavy applications for longer life with higher output.
	27502	Heavy duty drum complete with beam flails.	For the removal of paint, laitence and coatings from floors. De-rusting and de-scaling ship decks. Also used for removing build up of grease, dirt and ice deposits. Keying of concrete when a fine textured surface is required
	27504	Heavy duty drum complete with milling cutters and spacers	For removal of thermoplastic road/runway markings. Very efficient and cost effective with none of the problems associated with burning off thermoplastics. Also for the removal of bituminous and rubber deposits.
	60600	T.C.T Cutter: 6 point hardened steel cutter with tungsten carbide inserts	For all concrete texturing, scabbling planing and grooving applications. Removal of bridge deck and car park membranes, heavy industrial contamination, epoxy coatings and road markings, reducing concrete. Use on heavy applications for longer life with higher output.
	60120	Beam cutter: Heat treated steel cutter	For the removal of paint, laitence and coatings from floors. De-rusting and de-scaling ship decks. Also used for removing build up of grease, dirt and ice deposits. Keying of concrete when a fine textured surface is required.

BEF275-1 ACCESSORIES

	60620	Milling Cutter: Tipped with Tungsten carbide.	For the removal of thermoplastic road/runway markings, rubber based deposits and cold plastic coatings from asphalt and concrete.
	27500	Heavy duty drum complete with flail shafts.	For use with various cutter configurations.
	27518	Heavy duty flail shaft.	Hardened cutter shaft.
	40240	Spacing washer.	Hardened spacing washer.
